Hi, I'm Dennis Precious Peter, a multi-talented **Computer & IT Technician, Web Designer & Developer, Digital Artist,** and **Music Composer/Producer** with a passion for crafting immersive digital experiences. I blend technical precision with creative expression to build websites, apps, visuals, and soundscapes that captivate and inspire.

What I Do

Computer & IT Technician

- Hardware & software troubleshooting
- Network setup and maintenance
- System optimization and diagnostics

Web Design & Development

- Responsive websites using **HTML, CSS, JavaScript, React**
- Clean UI/UX design principles
- SEO-friendly and performance-optimized builds

App Development (Intermediate)

- Mobile-first design
- Prototyping and wireframing
- Frontend with React Native, Backend with Node.js

Music Composition & Production

- Genres: Soundtrack, Hip-Hop, Lo-fi, Electric, EDM
- Tools: FL Studio
- Sound design, mixing, mastering

Digital Art & Design

- Character design, concept art, and illustrations
- Tools: Photoshop, Illustrator, Procreate, Blender
- Visual storytelling and branding assets
- NFT-ready artwork and game assets

Backend & Database

- RESTful APIs with **Node.js**
- Databases: **MongoDB, MySQL**
- Authentication, data modeling, and deployment

Communication Skills

- Clear and confident communicator in both technical and creative environments
- Collaborative team player with strong listening and feedback skills
- Fluent in explaining complex ideas in simple terms
- Experienced in client-facing roles and remote team coordination

Hobbies

-  Producing music and experimenting with sound
-  Gaming
-  Learning new tech tools
-  Writing and storytelling
-  Visual art and digital design
